

El Voto Femenino

The women (and men) listed here were instrumental in the enfranchisement of women in their respective countries. Information about these women can be found in the exhibit, many accompanied by photographs. Not every woman who helped her sisters could be included in this exhibit. Those chosen, however, are just a few examples of what it means to be brave, strong, and thoughtful women, who wanted what was best for their country, family, and future. We thank them and all the others (past, present, and future) who are too numerous to count.
